

Classroom Management: Tips and Tricks for Facilitating Adult Education

Project Title	Classroom Management: Tips and Tricks for Facilitating Adult Education
Project Summary	Create a 'survival guide' for individuals that are subject matter experts of a specific content domain and need to deliver education and/or training to a classroom full of adults.
Country	United States

Project Description

This project will support individuals within the School of Applied Information technology that are content experts within the field of information technology, but do not have experience teaching a course. This project will result in a resource that will be included at the beginning of every instructor guide resource.

Required Skills or Interests

Skill(s)
Educational design
Writing

Additional Information

An additional benefit of this project is that you will be able to add the resource that is developed to your own personal project portfolio in order to showcase your great work to your future employer.
